Week 1 — Arriving

Notice what AI stirs in you · Student worksheets: Practice, Reflection, Lab, Check-in

Name (optional): _____

There's nothing to master and no right answer. You don't have to like AI to do this. Skepticism is welcome.

WEEK 1 · PRACTICE

Practice: Breath anchor + noting

▶ Watch first: **W1 Practice** video in the AIM-YA app.

Time	5 minutes, once a day if you can (set a timer)
How	Sit comfortably, phone face-down. Rest attention on the breath. When the mind wanders, silently name what showed up (planning, worry, curious, annoyed) and come back.
Remember	Naming isn't judging. There's nothing to get right.

Day	Minutes	What I noticed / named
Day 1		
Day 2		
Day 3		
Day 4		
Day 5		

WEEK 1 · REFLECTION · 10–12 MIN

Reflection: The 'AI and me' map

▶ Watch first: **W1 Reflection** video in the AIM-YA app.

Purpose	See where AI already lives in your life and what each place stirs, without judging it.
Done looks like	At least 5 places AI shows up, a feeling word and a +, − or ? beside each, and one sentence on what surprised you.
Keep it	You'll compare this map in Week 4.

1. Arrive One slow breath in and out. There's nothing to get right here.

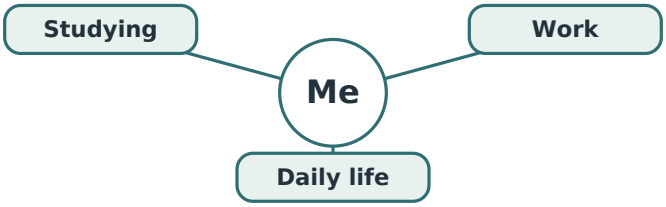

2. Center 'Me' is in the middle. Three branches: Studying, Work, Daily life.

3. Fill the branches Feeds, playlists, school tools, work apps, autocomplete, maps, search, filters…

4. Feel Next to each, a feeling word: curious, anxious, angry, hopeful, or nothing.

5. Mark + helps me · − worries me · ? not sure

6. Notice What surprised you?

Sketch your map here (or use the table below).

Where AI shows up	Branch (S / W / D)	Feeling word	+ / − / ?

One sentence: what surprised me most about my map?

WEEK 1 · LAB · 15 MIN

Lab: Next-word prediction + ask it something it'll get wrong

▶ Watch first: **W1 Lab** video in the AIM-YA app.

Big idea	A chatbot predicts the next likely word from patterns in huge amounts of text. It doesn't 'know' things the way you do.
Setup	Any chatbot you have access to.

1. Finish my sentence Type 'The best thing about mornings is' and let it finish. Run it 2–3 times.

2. Stump it Ask about your hometown, a very recent event, or a tricky riddle.

3. Read closely Does it sound confident? Is it correct?

Try	What I typed	What it said	Changed? / Correct?
Run 1			
Run 2			
Run 3			
Stump			

One thing I learned: sounding sure vs. being right

Keep in mind
- Don't paste private information (passwords, health details, other people's info) into a chatbot.
- If it gets something right, that's okay too. The point is noticing, not catching it out.

WEEK 1 · CHECK-IN · ABOUT 4 MINUTES

Check-in: Week 1

▶ Watch first: **W1 Check-in** video in the AIM-YA app.

Anxiety about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Curiosity about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

What story is my mind telling about AI? (1–3 sentences)

Part of the story that's FACT	Part that's FEAR

Metacognition: how was I thinking this week, not just what? (e.g. jumping to worst case, curious, avoiding)

Practice minutes this week:
