Week 2 — Seeing clearly

The humans behind the machine · Student worksheets: Practice, Reflection, Lab, Check-in

Name (optional): _____

There's nothing to master and no right answer. You don't have to like AI to do this. Skepticism is welcome.

WEEK 2 · PRACTICE

Practice: Body scan + noticing the urge

▶ Watch first: **W2 Practice** video in the AIM-YA app.

Time	5–10 minutes, sitting or lying down
How	Move attention slowly from feet to head. When you feel the pull to check your phone or ask AI 'real quick', notice where it lives in your body. Don't fight it, don't follow it yet. Watch it rise and fade.
Remember	Urges pass.

Day	Minutes	Urge noticed? Where in my body? What did I do?
Day 1		
Day 2		
Day 3		
Day 4		
Day 5		

WEEK 2 · REFLECTION · 10–12 MIN

Reflection: The people chain

▶ Watch first: **W2 Reflection** video in the AIM-YA app.

Purpose	See the human choices behind an AI tool you use.
Done looks like	One tool with all four links filled, one hidden choice named, and one question you still have.

Tool I'm looking at:

Link in the chain	Who? (your best guess is fine)	Hidden choice or missing voice
Built it		
Trained it (writers, data labelers)		
Profits from it		
Governs it (rules, laws, policies)		

When this tool gets something wrong, who is responsible for fixing it?

One question I still have about the people behind AI:

WEEK 2 · LAB · 15–20 MIN

Lab: Two tools, one topic — bias + hallucination check

▶ Watch first: **W2 Lab** video in the AIM-YA app.

Setup	Two different AI tools (two chatbots, or a chatbot + an image generator) and a topic you know well: your major, hometown, sport, fandom.
Hallucination	When AI invents a fact, quote or source and says it with confidence.

My topic:

Test	Tool A	Tool B
Bias: same prompt (e.g. 'Describe a typical nurse'). Who shows up? Who doesn't?		
Fact + source on my topic. Is the source real?		
Verdict: right / wrong / made up		

One way I'll double-check AI from now on:

Keep in mind
- Check sources with a quick search or your library database. A real-looking citation can still be fake.
- Notice patterns without judging yourself or the tool.

WEEK 2 · CHECK-IN · ABOUT 4 MINUTES

Check-in: Week 2

▶ Watch first: **W2 Check-in** video in the AIM-YA app.

Anxiety about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Curiosity about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Trust in AI output BEFORE checking

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Trust in AI output AFTER checking

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Calibration: what explains the gap? How much trust has this tool actually earned?

How often did I notice the urge to reach for my phone / AI?

☐ Rarely ☐ A few times ☐ Daily ☐ Constantly

What did I do with the urge?
