Week 4 — Future self

Values, work and agency · Student worksheets: Practice, Reflection, Lab, Check-in

Name (optional): _____

There's nothing to master and no right answer. You don't have to like AI to do this. Skepticism is welcome.

WEEK 4 · PRACTICE

Practice: Loving-kindness for uncertainty

▶ Watch first: **W4 Practice** video in the AIM-YA app.

Time	5–10 minutes. Hand on heart if that feels okay.
Phrases	May I be kind to myself in not knowing. · May I trust that I can learn and adapt. · May I remember what matters to me. Then offer them to a friend, then to everyone your age figuring this out.
Remember	It makes sense to feel uncertain. You can take one step anyway.

Day	Minutes	Who I sent kindness to / how it felt
Day 1		
Day 2		
Day 3		
Day 4		
Day 5		

WEEK 4 · REFLECTION · 12–15 MIN

Reflection: Values, fear vs. fact, one next step

▶ Watch first: **W4 Reflection** video in the AIM-YA app.

3 values I want my work to honor	Human strengths I bring

Evidence cards

Real shifts	**Mixed picture**	**What you control**
Employment for 22–25-year-olds in the most AI-exposed jobs fell 13% relative to other groups (Brynjolfsson et al., 2025).	Handshake calls the evidence on entry-level displacement mixed; more than half of hiring managers expect AI to create jobs, versus 24% of students.	Skills, relationships, values-fit, and how you use tools are yours to shape. Headlines are not.

A fear I have about AI and my future	What's actually fact? (source)

What are people in the field I care about actually saying and doing?

One next step (within my control, next two weeks)

My next step is

by (date)

WEEK 4 · LAB · 15–20 MIN

Lab: AI's career map, then my critique

▶ Watch first: **W4 Lab** video in the AIM-YA app.

Prompt 1	"Map out a path to becoming a [career], including skills, steps, a rough timeline, and how AI may change this work over the next 5–10 years."
Prompt 2	"This plan misses that I [value X / need Y]. Revise it with that in mind, and tell me what you're unsure about."

Career I explored:

Check	My notes
One genuinely useful thing	
What it missed about me (values, money, location, family, support...)	
Outdated or made up? (programs, salaries)	
After I pushed back: better? still missing?	
Human check (career services, professor, O*NET/BLS)	

Two things AI got wrong or left out · one thing I'll keep:

Keep in mind
- Describe your situation in general terms; don't share sensitive personal details.
- AI career predictions are guesses, and salary and job figures are often wrong.
- If the roadmap spikes anxiety, come back to your one next step.

WEEK 4 · CHECK-IN · ABOUT 4 MINUTES

Check-in: Week 4

▶ Watch first: **W4 Check-in** video in the AIM-YA app.

Anxiety about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

Curiosity about AI right now

0 ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 ○ 7 ○ 8 ○ 9 ○ 10 ○

not at all extremely

	Week 1	Week 4
Anxiety (0–10)		
Curiosity (0–10)		

Map compare: open my Week 1 map, redo the marks in a new color. What would I add? What changed?

Story now: what story is my mind telling about AI now, compared with Week 1?

What changed for me over these four weeks, and what didn't? ('Nothing' is a valid answer.)

Keep practicing: which practice will I keep?

- ☐ Breath anchor
- ☐ Noting
- ☐ Body scan
- ☐ STOP
- ☐ Walking
- ☐ Loving-kindness
- ☐ My charter
- ☐ Hint-giver prompt

When and where:

Pass it on: one thing I'd tell a friend who's anxious about AI.

Then complete the post-program survey in the AIM-YA app.
